PROFILE

Full-stack .NET developer with proven experience building and operating B2B SaaS platforms. Specialized in multi-tenant architectures, document workflows, digital signatures and cloud infrastructure. Seeking a full-stack .NET developer role in Zürich from September 2026.

EXPERIENCE

Tech Lead & Full-stack .NET Developer Jan 2026 – Present
HumanTech Software

WebRRHHpro — Multi-tenant HR SaaS · Production with active tenants

- Architected and developed a multi-tenant SaaS platform (.NET 10, Blazor, PostgreSQL, Clean Architecture) with subdomain isolation, RBAC and EF Core global query filters across 6 roles.
- Built OCR document classification and 3-mode signature workflows (OTP, click-to-sign, certificate-based). Reduced paper-based HR processes by 95%.
- Delivered production infrastructure on GCP with Docker, Caddy, GitHub Actions CI/CD, SignalR real-time notifications and Serilog logging.

Full-stack .NET Developer May 2025 – Present
HumanTech Software

WebCAEpro — Workforce management platform · Multi-tenant

- Implemented GDPR-compliant digital signature workflow for monthly timesheet validation with SHA-256 magic links, audit trail and PDF stamping — 100% digital compliance.
- Designed REST API for concurrent mobile time tracking with encrypted API keys and timezone-aware validation.
- Extended single codebase to serve 3 business brands with isolated databases, independent SMTP/WhatsApp channels and branded themes.

Software Engineer May 2022 – May 2023
Correcto · Startup

- Built responsive web platforms with Angular and JavaScript in an agile startup environment.
- Managed GCP deployments and collaborated cross-functionally using Jira.

EDUCATION

Full Stack Developer Program 2021 – 2022
Upgrade Hub · Madrid

Higher Technical Certificate (ASIR) — Network Systems Administration 2018 – 2020
IES Fuengirola N°1 · Málaga
